

## **REVIENCE CORPORATION (Formerly Enhanced Home Systems & Home Media Innovations)**

### **ROLE: Low Volt Tech/Installer – Twin Cities Metro Area**

Revienc Corporation designs, builds, and installs end-to-end technology solutions for the residential and light commercial market. We pride ourselves on providing superior craftsmanship along with state-of-the-art technologies and high quality installations. Our goal is to make your home or business smart, functional, and the most personal space imaginable.

The role of the Low Volt Tech/Installer will be to install and service wired and wireless technologies including home theater, lighting controls, security systems and cameras, home networking, automated blinds, and other low volt technologies. You will respond to questions/inquiries, troubleshoot, problem solve, and ensure that the needs of the clients are being met.

Revienc has been in business for nearly 30 years, having acquired Enhanced Home Systems (EHS) in 2021 and Home Media Innovations (HMI) in 2023. We take a lot of pride in providing our clients with an experience that exceeds their expectations. It is our reputation for providing the highest quality product with a client centric service approach that has allowed us to grow and provide new employment opportunities in many areas. At Revienc we seek like-minded employment candidates who share our value for quality craftsmanship and unparalleled service.
